SUBJECT: OC-MPB Weekly Staff Notes, 6 - 12 December 1987

spectrum issues came under discussion, the highlight of which dealt with a proposal currently under review by the FCC to allocate two megahertz of the 220-222 MHz Amateur Radio band to the Land Mobile Service. While this issue was tabled for further discussion, opposition to reallocation of this band seems to be gaining momentum within the IRAC Working Group.

25X1 e. [] attended the DOLPHIN []
25X1 [] meeting at Headquarters on 16 December. OC has been
25X1 requested to give a presentation on Cryptographic Key
25X1 Management at one of the [] meetings in either January or
February. After the meeting, Messrs. []
offered their assistance to brief interested managers in OC
on the implications of the DO FY1990 DOLPHIN initiative.
IMS will request a formal response to the initiative by 7
January 1988.

2. Satellites:

25X1 a. Seven Office of Communications representatives
visited the COMSAT General Corporation at L'Enfant Plaza,
SW, Washington, D.C., on 15 December. Mr. Don Flora, Vice
President of Special Program Operations, provided a briefing
on various COMSAT enterprises, a demonstration of the Canon
Still Video System, and a tour of the facilities.
